## Rules of Interest

**QUALIFYING MARKS:** To qualify for a minor league batting title, a player must have a minimum of 2.7 plate appearances per game (approximately 383 PA). To qualify for an earned run average title, a pitcher must have at least 0.8 innings pitched per game (approximately 114.0 IP).

**DETERMINING BATTING AVERAGE:** Divide the number of hits by the number of bats.

**DETERMINING EARNED RUN AVERAGE:** Divide the number of earned runs by innings pitched and multiply by nine.

**DETERMINING A SAVE:** A pitcher is credited with a save when he meets the following conditions:

1. He is the finishing pitcher in a game won by his club.
2. He is not the winning pitcher
3. He meets one of the following:
  - a. He enters the game with a lead of no more than three runs and pitches at least one inning; or
  - b. He enters the game with the potential tying run either on base, at bat, or on deck; or
  - c. He pitches effectively for at least three innings in relief.

**DETERMINING SLUGGING PERCENTAGE:** Divide the total bases of all hits by the total times at bat (at bats do not include walks, sacrifices, hit by pitches, or times awarded first base on interference or obstruction).

**DETERMINING FIELDING PERCENTAGE:** Divide the total number of putouts and assists by the total number of putouts, assists and errors.

**DETERMINING THE MAGIC NUMBER:** Divide the total number of games yet to be played, add one, then subtract the number of games ahead in the loss column of the standings from the closest opponent(s).

**CONSECUTIVE GAME PLAYING STREAK:** A playing streak shall be extended if the player plays during a half inning on defense, or if he completes a time at bat by reaching base or being put out. A pinch-running appearance shall not extend a streak. If a player is ejected from a game before he can comply with the requirements of this rule, his streak shall continue.

**CONSECUTIVE GAME HITTING STREAK:** A consecutive game hitting streak shall not be terminated in the plate appearance results in a base on balls, hit batsman, defensive indifference or a sacrifice bunt. A sacrifice fly shall terminate the streak.

**MAJOR LEAGUE ROOKIE STATUS:** Not more than 130 at bats or 50 innings pitched in the major leagues during a previous season or seasons, nor more than 45 days on a Major League roster during the 25-player limit

**MAJOR LEAGUE TRADING REGULATIONS:** The Major League non-waiver trade deadline is July 31st. Waivers are required for any inter-or intra-Major League assignment during the period beginning August 1st and ending at 5:00 PM (EDT) the day after the end of the season. During other months, no waivers are needed. The waiver periods are November 11th to the 30th day of the season; 31st day of the season to July 31st and August 1st to November 10th.

**MINOR LEAGUE DISABLED LIST:** A player being placed on the Disabled List in the Minors Leagues must be on that list for at least seven days. There is no length to which a player may be on that list, as long as it is no shorter than seven days.
